Dear Mr. Lane:

Re: CERCLA Investigation
McKinley Thompson Landfill
Marion County

This letter is to inform you that the McKinley Thompson Landfill will not be deleted from our records as a potential candidate for the National Priorities List as requested by your letter of October 15, 1985.

The Order to withdraw, V-W-83-R-011, indicates you are not required to achieve interim status under section 3010 of the Resource Conservation and Recovery Act (RCRA). However, this provision does not exempt your facility from investigation under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The ongoing CERCLA investigation is not just limited to activity at the facility since Lane Restoration acquired the property but to all activity prior to that date.

Our files indicate that the McKinley Thompson Landfill did accept sludges, commercial and industrial wastes in addition to demolition materials. The threat to public health and the environment from hazardous substances that are characteristic of these waste types will be the focus of our site inspection on October 29, 1985.

Questions regarding this site inspection can be directed to Mr. Dean Nygard of this office at AC 317/243-5129.

Very truly yours,

Harry E. Atkinson, Chief
Site Investigation Section
Remedial Response Branch
Division of Land Pollution Control
